

A Special Picnic

Last Sunday, our family went to a picnic site together. We went there by minibus. We went there with a happy mood. There were some fruit, juice and sandwiches in our bags.

We arrived at the country park in the morning. We had a picnic there. We felt excited. We took out the sandwiches, fruit and a bottle of water when some monkeys were looking at our bananas because they were hungry and they loved bananas.

We put down the food on the table. We played in an area surrounded by trees. My father was taking pictures of my sister while I was playing badminton with my mother. We enjoyed ourselves.

When we went back to the table, we found that the food had disappeared. The monkeys stole our food and hid behind the trees. We didn't see the monkeys. My sister and I were sad because we lost all our food.

Finally, our parents suddenly saw the monkeys when my sister and I were feeling annoyed. My father tried to grab the bananas from the monkeys but it was very difficult. He couldn't get back all the bananas. My mother told us to think positively. She said, 'We are sharing food with the monkeys!' We felt satisfied and happy.
